FLORIPALMA DE MEXICO S.A. DE C.V.: Is a company created for the export of foliage of palm camedor, in its different varieties. The foliage is selected and packed 20 sticks per bundle, and it is available in three different sizes:

JUMBO
(30 cms.)

PREMIUM
(40 cms.)

HUGE
(50 cms.)

They are packed for delivery in high resistance collapsible cardboard boxes. The box's high resistance allows for 30 bundles each, in accordance with the international norms of packing.

Presently, we are established in Villahermosa, Tabasco, Mexico. This southeastern part of the Mexican republic is part of the "humid tropic". These conditions provide us with an excellent production of flowers and foliage, and ultimately an unbeatable quality.

We ship a thousand and five hundred boxes, each with thirty bundles of every variety mentioned, weekly.

All our products carry Certificates of: Origin and every other certificate required by the corresponding Government dependences.
